Watson at Maconington—Crushed His  
Skull—Sale of Fine Stock—Unknown Ink  
—Negro Captured—Three Assign-  
ments—Base Ball.

Won Two From Henderson.

The Hopkinsville ball team won two more victories this week, defeating Henderson, on the latter's grounds, Tuesday and Wednesday, by the score of 12 to 4 and 18 to 5. Our local team played Owenton yesterday and will have another game to day with the same club. The next four games in this city will be played next week. Friday, Saturday and Sunday and Monday and Tuesday and Owenton Thursday and Friday. All the clubs in the league have been strengthened recently and the games to be played here next week will be first class and should be witnessed by large crowds. Maurice Hoard has arrived from Toledo, O., and will finish the season with Hopkinsville.

Charge of O. V. Time Card.

Another change of schedule went into effect on the Ohio Valley road Sunday. The afternoon mail train now leaves this city at 3:20 instead of 3:05, arriving at Princeton at 4:45, and the morning passenger arrives at 11:30, instead of 11:40. No, it is the night train now, at 8:30, instead of 9 o'clock. The morning passenger out of this city leaves at 5:20, the old time. The change was made in order to make connection with the C. O. & S. W. at Princeton, that road having recently made several import ant changes in its time card.

No More Camp Meeting at Sebree.

There will be no camp meeting at Sebree this year. The recently adjourned session of the Methodist district conference at Morganfield, decided that the best interest of the church demanded the discontinuance of the camp meeting. The sentiment against the proposed to have been unanimous, it being voted that there seems to be no possibility of having the decision rescinded, although many are of the opinion that much good would result should a meeting be held this year.

A Regular Water Sport.

A little flood visited the Manning company Sunday morning last and did great damage both to livestock and other property. It was a regular water-pot and lasted for an hour or more. The L. & N. depot at that place washed from its pillows and came near being upset. The track was washed out for several hundred yards, destroying a train for several hours. Many sheep, hogs and chickens were drowned and hundreds of panels of fencing were carried away. The rain fall was the heaviest in that section for forty years.

Crushed the Jailer's Skull.

A negro prisoner, confined in the Dover, Tenn., jail, attacked Jailer Joseph Cooley and broke his skull with a slab from a bed, beating him fearfully. Afterward the negro, who had been arrested only a short time before, on the charge of larceny, stole the jail keys from the prostate officer and made his escape. He had not been captured until at last accounts. There is said to be no hope for the recovery of the jailer.

Two Callaway Firm Assigned.

N. B. Butterworth & Co., merchants at Hazel, Calloway county, made an assignment Monday to S. H. Deen. Liabilities about \$3,500, with assets to cover same. Al Murray, R. F. Farnier, who were in the store, was locked up. Attachments set out by creditors. Mr. Farnier, with his brother, H. P. Farnier, formerly did business in this city and later in Clarksville.

Big Sale of short Horn Stock.

Messrs. John T. and Jesse Evans prominent stock men of Trenton shipped \$2,500 worth of short horn cattle to Louisville this week. Evans Brothers are live cattle men and are making a great success of the business. The Evans boys are from this country and their many friends will learn with pleasure of their prosperity.

The Dawson Well.

Mr. J. H. Hicks, of Dawson, has had the water from his "old well" analyzed. It contains very valuable properties and is a specific for bronchial coughs, and is proving very valuable to consumptive patients. Hicks will at once take steps to put the merits of this water before the public and believe he has a good thing of it.

Caught a Henderson Negro.

Chief Fritz arrested Douglas Owlesly, col., on a warrant from Henderson county charging break-  
ing. Officer Sam Walker took the prisoner over to Henderson. Wednes-  
day night and delivered him up to the authorities there.

## KILLED HIS SON-IN-LAW.

Clarkeville The Scene of a Domestic Tragedy.

Clarkeville, June 4.—Bad feeling of about a year's standing caused a domestic tragedy in South Clarksville this evening. David Halliburton shot his son-in-law, J. T. Hite, a carpenter, who came here from Nashville, killing him almost instantly. The report of the killing is that the men met, words ensued and Halliburton drew a revolver and fired, the shot taking effect in Hite's stomach. The men were neighbors and Halliburton was down, but is said to have fired three more shots, and all four bullets took effect, three entering Hite's stomach and one passing through his mouth. Hite received only a few times.

Halliburton was taken to the police station and is in jail. He refused to make a statement to-night, declaring that he was in much pain from injuries on his arm and back inflicted by Hite. The cause which led up to the tragedy was the eloquence and sum-  
mer of Hite's. Halliburton is a 16-year-old daughter, Alida. Hite being only twice her age. The young lady had attended church with her mother but stood away from Hite during services, and the couple were married in a carriage by Magistrate Caldwell in front of his residence. Halliburton used to call to all Hite's, and when the eloquence, shooting him in the back of the head. Halliburton was tried and acquitted of this charge. Halliburton's people stand well, but Hite was not much known here.

## THE CONVENTION.

ATTEMPTED ORGANIZATION EFFECT ED WEDNESDAY.

A Great Crowd of Democrats Present and Harmony Seems to be the Object and Aim of the Foremost Leaders—Gold Not in it.

THE CONVENTION ORGANIZED.

Lexington, June 3.—The time fixed for calling the convention to order was 2 o'clock solar time, but at least two hours before the cars leading to the Chautauqua were crowded with delegates, and when Chairman Long, of the State Central Committee, stepped to the speaker's stand, every available chair in the delegates' quarters was occupied, while the portion of the building adjacent to visitors was crowded to its utmost capacity.

Saxon's band made its appearance at 1 o'clock and discoursed sweet music while the delegates slowly filed into their places. The building was totally inaccessible to the crowd, and while a crowd of spectators in the rear extended outside and entirely around the building until they were packed half a dozen deep on the side.

The first indication of life was the playing of "Old Kentucky Home," and a cheer went up that could be heard for a mile away. The right half of the hall was an elevated platform, which was filled with the beauty of the State. At 1:45 o'clock, standard time, Chairman Long, of the State Central Committee, rapped for order. Dr. W. H. Hunt, of the Presbyterian church, invoked the blessing of God upon the assembly.

The Rev. W. B. Bolling of the Methodist church had been invited by the free silver men. Prayer was made by Dr. Bartlett.

Chairman Long, having concluded his address announced that nominations for ten members of the executive order, John Kline, nominated Charles J. Bronston, Col. Bennett H. Young the part of Gold men nominated Judge Alex P. Humphrey. The vote was taken resulting 691 for Bronston and 614 for Humphrey.

Nominations for Secretary were called for and Wm. Cornwall, East Cassidy, and Dennis McQuot were placed in nomination. On motion all three named were declared elected.

There was likely to be a bitter contest between Goebel and P. F. Johnson as the successors to Chairman Long. Although it is known that Goebel has Blackburn's pledge to stand by him through thick and thin, the general impression is that Goebel and Johnson will be chosen.

There will be a change in the general committee to be chosen. Dr. McCall, who was the most popular man in the college, was nominated and that Maj. Johnson will be chosen.

COMMITTEES NOT READY TO REPORT.

Lexington, June 3.—In reassembling at 8 p.m., the committees not ready to report the convention was adjourned until 9 p.m. to-morrow.

SECOND DISTRICT STATE.

Lexington, June 3.—The Second district met in the Auditorium on East Main. C. M. Meacham, Chairman of the district committee, called the meeting to order and presided. Lawrence Tanner, of McLean, was made Secretary.

The committee's slate was put through without any hitch whatever: Delegates to Chicago, J. F. Dempsey, of Hopkins, E. P. Milette, of Daviess Alternates, T. M. Willingham, of Webster, N. P. Taylor of Henderson, Vice-chairman, the Honorable W. V. Taber, Hancock member Committee on Creditors, H. M. Stanley, of Henderson, member Committee on Organization, F. B. Richardson, of Christian, member Committee on Relations, Henry Allen, Union.

Electoral, C. E. Bradbury, of Davies, and S. A. Young, of Madison.

A motion was carried to recommend W. T. Ellis delegate-at-large to Chicago and Urey Woodson was recommended for member of National Committee from Kentucky.

COMMITTEES TO REPORT THIS MORNING.

Lexington, Ky., June 3.—A permanent organization of the Convention was not effected. The Committee on permanent organization decided to report in favor of "S. P. Johnson for State Central Chairman and Lexington for headquarters of the Committee." The committee will be reorganized and a general strike up made in the city.

The new committee will endeavor to secure a large number of free silvers. All three Committees will report to the convention to-morrow morning.

## CLOSING EXERCISES.

Bethel Female College Entertainments a Brilliant Success.

The series of entertainments given at Bethel College have caused quite a sensation by the unusual brilliancy and variety of the programmes.

Monday evening the annual concert took place in the college chapel. After the excellent programme, which consisted of vocal and instrumental music, a reception which proved an enjoyable affair was given to the young ladies.

Tuesday evening the annual commencement address was given by the seven graduates by Rev. W. P. Hunt, of Louisville. This being somewhat unlike the usual routine commencement addresses, was quite a success and won for Mr. Hunt the esteem of all who were so fortunate as to hear him.

The chapel was beautifully draped in the class colors, green and white. Magnolias and orlanders were scattered in profusion in every imaginable place.

The address being over, a short talk was made by the president, after which the diplomas and honors were awarded. After a beautiful piano selection by one of the young ladies, the graduates marched into the drawing room where the diplomas and certificates of their friends were presented.

This class of graduates is the largest who have ever sent forth, a brighter class of graduates than the seven who received their diplomas on Tuesday night. In addition to those who graduated from the regular course, Miss Jennie Ball completed the course.

Misses Miles and Elsie Torrence in elocution. Five received music certificates and twelve certificates of honor.

Wednesday afternoon at 4:30 the class tree was planted by the fair graduates with appropriate ceremony.

The class trees and property were received and received with much interest by the large number who were present.

Wednesday night the College chapel was filled to overflowing, the halls and gallery adjoining being crowded with those who could not get seats in the chapel.

The entertainment was unique and charming, and the numbers were frequently interrupted by applause.

At the close Prof. Edmund Harrison, the new president, was introduced by Dr. McCall, and made a brief speech. The retiring president, Dr. McCall, who has completed five years of the most successful work in the history of the college, then stated that he would remove to Franklin, Ky., and take charge of the well known Franklin College of that city. Many expressions of deepest regret were expressed that Dr. and Mrs. McCall are to leave this city.

The beautiful and artistic decorations by which the interior of the building was transformed into a fairyland were all the creation of Mr. McCall's cultivated taste, and in the opinion of hundreds who have enjoyed the hospitality of the college, Hopkinsville loses one of its most elegant and attractive丢失esses when Mr. McCall leaves. The good wishes of all denizens in the city will go with Dr. and Mrs. McCall and their charming daughter, Miss Florence, as they leave our midst.

## Two Negroes Lynched.

Columbus, Ga., June 1.—Two negroes were hung to a tree in the middle of Broad street, the main business thoroughfare of this city and riddled with bullets by an infuriated mob at 10 o'clock this morning. They were Jessie Slatton and William Miles. Last Thursday Slatton outraged Mrs. Howard Bryan, a respectable white woman of this county. He was captured and placed in jail before the crowd looking for him found him. Then he was taken to the court room and into the court room yelling and brandishing rifles and pistols, seized the defendant, threw him over his neck and beat him a hundred rods down Broad street. The body was then hung up to a tree and left dangling there. The crowd then went to the jail after Miles, another negro, who attempted to outrage Mrs. Bryan, of this city, a negro woman. The jail was packed with the mob, but to no avail, and was compelled to surrender the keys and the doomsday was lead to the place where the body of Slatton dangled.

Miles was quickly strung up, and the body gibbed with a hundred bullets. Miles had been tried and convicted twice, but his case had been sent back by the supreme court on technical points for a new trial. His last trial resulted in a mistrial, and he was in jail awaiting a fourth trial.

## Miles迅速被吊死。

Miss Letitia Burress, of this country, was given 15 months in the penitentiary by the Federal court in Owensboro, Wednesday, for fraudulently obtaining a pension.

**FAITH OF PRESIDENTS,**  
When Were Presbyterians, But Others  
Have Been Too.

The religious convictions and church affiliations of our presidents have often excited the curiosity and interest, not only of church members, but of serious people generally, says the Philadelphia Record. Washington was a communicant of the Episcopal church; Jefferson, though attached to his belief in a supreme being, Jefferson, however, never connected himself with any denomination, and not very often attended any place of worship. John Adams was a Unitarian, Madison a Methodist, Monroe an Episcopalian; John Quincy Adams was a Unitarian; Jackson joined the Presbyterian church after the death of his wife; Van Buren attended the Dutch Reformed church, but was not a member. W. H. Harrison was an Episcopalian, so also was Tyler; Polk was not a church member, but on his death bed was baptized by a Methodist clergyman; Taylor was a regular attendant at the Episcopal church; Fillmore was a Unitarian; Pierce, a Congregationalist; Buchanan belonged to the Presbyterian church; Lincoln attended the same church as his mother. Grant was a regular attendant on the service of the Methodist church, though not a member of any. Hayes was a Methodist, commandant Garfield attended the Church of the Disciples, sometimes also called the "Christian" or "Campbellite," of which he had once been a preacher. Arthur, an Episcopalian; Harrison is a Presbyterian elder and Mr. Cleveland attends the Presbyterian church.

**Mrs. Howe's Husband.**

As regards the "new woman," somebody resurrected an old story the other day about Mrs. John Ward Howe that is not many years old. The story goes that Mrs. Howe was one fine morning walking down Beacon street, Boston, when she met a friend who asked her how Dr. Howe was. "Dr. Howe?" repeated Mrs. Howe vaguely. Then, as if suddenly recollecting what he said, she replied: "He's quite well, I'm sure. I remember seeing in the morning paper that he presided at some meeting or other last evening."

## QUALITY OF CYPRESS WOOD.

The Trees Are Notoriously Slow Growing, But Are Durable.

The cypress is a notoriously slow growing tree, and its wood is just as notoriously durable, says an exchange. It is capable of not only resisting the action of the weather in a manner totally different to all woods, but is wholly uninfluenced by immersion in water over a long period of years. It has many curious chemical properties, which hold its fibers and other constituents together so indissolubly that the ordinary changes which break down the durability of ordinary woods are in cypress wholly resisted.

Instances are known where the wood of cypress has endured for more than 1,000 years, leaving it still in a solid condition, subject only to the attrition of the elements, such as the gradual wearing away one sees in exposed rocks. In the lower valley of the Mississippi a species of cypress is extremely abundant, and in New Orleans lately, while some men were excavating a trench, a cypress stockade was found which was erected in 1730 by the French as a protection against the Indians. Some of the posts measured twelve inches with a thickness of about 12 inches, and, though it had been buried for so many years, it was in perfect condition when exhumed, even the tool marks being still clearly visible.

By a series of experiments extending over many years, it has been found the cypress wood endures the varying conditions of greenhouses better than any other wood. Greenhouses exposed to all the vicissitudes of heat, moisture and changes of temperature show the cypress timber used in their construction to be practically unchanged after more than 50 years of use, and, being suitable for interior purposes, it is probable it will come more generally into use for building where a wood of great resisting power is required. Many old doors made by the early Spaniards in America are still as serviceable as ever, although exposed to a most trying climate.

## AUSTRALIA'S WOMEN BARBERS.

*They Must Serve a Three-Years' Apprenticeship.*

The Australians take no chances with their barbers...say, the New York World. They must be good, and the Barbers' and Wigmakers' union of Vienna sees to it that they are. "Provision is also made in their code for women barbers who desire to carry on the business of their husbands in case of the latter's death or illness."

"But in order to do this the wife must have been enrolled in the union as an apprentice for three years," a representative, by the rules of the union, must say to a woman in the presence of judges of the union and show them their skill before they are allowed to open shops of their own.

A properly certified barber must have a knowledge of and pass an examination in shaving, hair-cutting, hair-curling and wig-making, and during the period before the issuance of a certificate the poor and others who are frugal serve as subjects for experiment.

At the examination the young men have their razors dulled by four strokes in a pine plank, and they must then sharpen them. A subject is assigned to each, who must be temporally perfect, in the opinion of the judges, before the apprentices are released.

After this a certificate is issued and the apprentices serve two years as a journeyman before he may open a shop as an employer. The average age of apprentices when they begin to learn their trade is 13 years.

## A Hard Task.

A vessel ready ready for sailing, the captain ordered a new hand to take a boat to shore and buy ten shillings' worth of vegetables. Not being certain of the meaning of the word, the man appealed to the first individual he met: "I say, mate, what might vegetables be?"

"Vegetables," said the stranger replied, "Why, peas are vegetables, for instance."

"That'll do," said Jack.

Having got his sack filled with peas, he pulled back to the ship, and when alongside the captain called out: "Have you got those vegetables?"

"Yes, sir."

"All right," said the captain. "Then hand them up one by one."

"Very well," said Jack, scratching his head, "I've got a job now and no mistake."—London Telegraph.

*Large Price for a Picture.*

The largest sum paid for a picture during the past season is the 10,000 guineas given for Gainsborough's "Lady Mulgrave," a small canvas measuring only 20 inches by 24.

This is the largest sum ever given for a picture of this class. Cornelius Vanderbilt was the buyer.

Wardsworth gave the world a volume of poetry at 23, and some of his lines were much better than any we wrote afterward.

## NICKNAMES OF STATES.

How Some of Our Commonwealths Obtained Their Designations.

State nicknames in this country began to lose their aptness, says the New York Herald. New Hampshire's name, the "granite state," is almost as well known as other mountainous states, and she never really deserved to be called the Switzerland of America, since her mountains are but hills compared with the mountains of Switzerland. Several of the Rocky mountain states more nearly deserve this title. Colorado, for example, has 41 mountains more than 14,000 feet high, and, in all, 139 mountains more than 13,500 feet high. Colorado's own name of the centennial state, can only be given to other states which are not quite so high. There is a look at Colorado might dispute the name of "golden" with California.

Maine's forests are disappearing so rapidly that some of the northwestern states may soon have a better title to the name "pine tree state." There are more famous bays than that of Massachusetts, and certainly Chesapeake bay, if considered only as a body of water, has more distinction than Massachusetts, and, historically, the Chesapeake is quite as famous, so that the name "bay state" might, with aptness, be given to Maryland.

There are quite as characteristic green mountains elsewhere in the United States as those that gave Vermont her French name. The "empire state" seems inappropriate to any democratic community, but it is appropriate to New York, if to any state of the union, and it is likely to be a long while before even Texas can lay claim to the title. The name that Texas takes pride in, "the lone star state," is certainly hers by right, as she is the only state to have come to be an independent republic, entirely unconfederated with any other state.

Pennsylvania is no longer the key-stone of the union's arch, just as it is no longer politically true as Pennsylvania goes so goes the union. If Delaware ever deserved her name of the "diamond state" she certainly cannot claim it against Rhode Island, since the latter is not only much smaller, but, as well, much richer.

No state disputes Virginia's nickname, the "old Dominion," though for political reasons it dates back to a time when our Atlantic coast knew only two ill-defined political divisions—New England and Virginia. Ohio's buckeyes are no longer a distinguishing feature of her rapidly disappearing woodlands. Indiana is being civilized out of her hoosierdom, and wolverine must be pretty scarce in the state to which the beast has given a nickname.

Connecticut has learned so many smart tricks since the days of the revolution that she deserves to be called a "show-off," and she might easily discover an apt name of reproach. Louisiana doubtless has as many peccans as Florida or any other state, and so may well hold to her nickname, while North Carolinians are properly enough called tar heels, since their state is still famous for tar and kindred products.

*Unkind.*

Lollipop—Weally, Clawa, I was actually about to say something, don't you know, but it—ah—escaped my mind.

Clara—Indeed! I have no doubt that it feels greatly relieved.—Richmond Dispatch.

HAD THE BLUES, AND CAME UP.

Last Friday I felt very badly. I kept getting worse until I was almost mad. I could not love my own children. I was on the brink of suicide.

Finally I got a bottle of Dr. O. A. Carlstedt's German Liver Syrup. That night, for the first time in months, I slept well and began to improve. Now I am well and a truly happy wife. I took Mrs. T. O. SCHMIDT, Milwaukee, Wis.

## TOBACCO MONOPOLIES.

How Shrewd King James Made His Subjects Give Up Money.

A monarch of such remarkable shrewdness as was King James, as displayed in his creation of a new and lucrative business for the sale of distinguished titles and high offices of state, where he himself possessed the sole monopoly, would naturally see his way to a further stroke of "good business" in the tobacco market, says the Gentleman's Magazine. Accordingly, we are not surprised to learn that, viewing with jealous eye the flourishing state of the new industry, the king concluded that the tobacco concession offered might be replenished by taking a still deeper interest in the weed. Hence the issue of a royal proclamation to his loving subjects that they were forbidden to deal in tobacco unless they purchased royal letters patent granting them a license to do so. These could only be procured, on payment of a yearly sum from the persons who farmed from the king the right to enforce and collect the tax. In the "Stafford Letters," compiled by Gerrard, relating to the collection of the new tax, it is stated that "some towns have yielded twenty marks, 10 pounds, 6 marks, fine, and rent; none goes under 1 mark. I hear that Plymouth had yielded 1000 pounds, and as much yearly rent."

The tobacco licenses go on apace; they yield a good fine, and a constant yearly rent."

In some instances a life lease to deal in tobacco was granted on payment of a lump sum. As to the king's method of dealing with state affairs of the kind, let Sir Anthony Weldon speak from personal knowledge. "He says of the king that 'he was as crafty and cunning in petty things, as in circumventing any great man.' He had a trick of causing his enemies to be brought into his hand, by taking 1,000 pounds or 1000 pounds as a bribe, when (at the same time) his counsel was treating with his customers to raise them to so much more yearly; this went into his privy purse, wherein he thought he had overreached the lords, but consented himself, but would as easily break the bargain upon the next offer, saying he was mistaken and deceived, and therefore no reason he should keep the bargain. This was often the case with the farmers of the customs."

There is a document in the state archives which throws a curious light on the king's ideas of wealth. The settlers in Guiana had become tobacco planters, and so required a trade charter with this country. A charter was issued to them, when a clause was inserted to the effect that one-tenth of the tobacco grown there should go to the king. Thus, in a round-about way, the king became a tobacco merchant.

TABLETS.

An Old Soldier's Reminiscence of the Civil War.

"No doubt the most beautiful of all the army bugle calls is tame, the call for lights out," said the old soldier.

"There are other calls that are stirring and some that are very musical, but none so beautiful" as this.

"I remember a time when we had settled down in camp for awhile with all the routine of camp life, day after day, from reveille to taps, so that we came to look forward to our regular rations and to listen each day for the call, fatigue guard mount, hospital call, dress parade and so on through the day, to tattoo and taps at night."

"Right next to us was a regular battery, we could hear their calls about as plainly as we could our own. We had good buglers, but there was a man in the battery who was an artist; and after we came to know him we used to listen to hear him blow taps. The camp was still. Suddenly would come the notes of a bugle; one man blowing the call; and blowing it well; a musical and graceful good night. Then the man in the battery; he always blew last. It always seemed as if he had led a man to the post, for the applause from our tents and our own men to boot. Then we would fancy him raising his bugle, and then the lovely call as he blew it; a most melodious good night. Then we used to turn over and go to sleep." —N. Y. Sun.

CONSOLIDATED.

It is possible to find occasion for thankfulness under the most adverse circumstances. The Church Times tells of an old organ-blower who was dying. The curate was visiting him.

"Would you mind, sir, asking our organist to play the 'Dead March' over me?" asked the sick man.

"Certainly I will, Jones," said the curate.

"Thankyou, sir; none of that tweedledum, Beethoven, you know, sir; only Handel's."

"I am sure he will do it," responded the curate.

The old man lay placidly for awhile, and then exclaimed with a smile.

"How thankful I am that I shall have to blow for him when he plays the loud part at the end."

## DIDN'T MIX WITH TROUBLE.

The Stranger Within the Gates Observed a Strict Neutrality.

In answer to my "Hello" the housewife's mountaineer's wife came to the door and uttered a "Howdy" and as I asked for lodgings for the night she looked over and finally said:

"Stranger, ar' yo' much of a hand to mix in?"

"How do you mean?"

"Well, kin yo' set by h'ar two people jassin' without takin' sides?"

"Yes, I think so."

"Won't take up fer neither one?"

"No."

"Kin mind yo' own business and let me fout it out?"

"Yes."

"Well, then, yo' kin git down and stop for the night. Put yer hoe-in in that shed and the old man will take keer of him when he comes home."

"I can't exactly make out what you meant when you spoke about quarreling," I said, after entering the house and seeing that she was alone.

"I kin explain in about a mint," she promptly replied. "We've two sort of religion around here—Methodist and Baptist."

"Yes."

"The ole man's a Methodist, but I'm a Baptist from top to bottom. Shant's bein' both a' a Baptist if I live to be a hundred years."

"I see."

"Rockin' ar' the looks of yo' that yo' ar' a Presbyterian. After supper the ole man'll begin to praise the Methodists and run down the Baptists. That'll fix me up, and I'll begin to praise the Baptists and run down the Methodists. We'll just make things hum arter we git to goin'."

"And I don't come in?"

"Not if yo've any sense in your head. If yo' should go fur to back up on one of us other would pitch into you, and if yo' should go fur to defend us other would roll over and cry up to down yo'. Dye go."

"Do, indeed, and my policy will be to stand neutral."

"That's fer sorter between us, and sayin' nothing—not if yo' want to stop all night."

We had scarcely got our pipes lighted after supper when the old man threw out a hot shot and was speedily answered back, and for half an hour things were more than lively; I stuck to the neutral policy, though it was the hardest kind of work, and when the people had finally cooled down the husband said:

"Wall, bless the Methodists and burn the Baptists, and let's entertain this year stranger the best we know how in both kinds." Detroit Free Press.

NEARLY TEN MILLION MEN,

Number of Troops the United States

Colored Put in the Field.

According to a report on the organized militia of the United States, which has just been prepared by the war department, the United States, in case of need, can put 9,467,693 men in the field.

At the close of the year 1895 every state and territory, with the exception of the Indian Territory and Alaska, had an organized national guard.

The total appropriation allowed the militia by the government amounted to \$400,000, while the states during the same period, spent \$2,834,974 on the organization. It is estimated that mobilization of the militia could be effected in the different states and territories in from three hours in the District of Columbia to seventy-two hours in Oregon, other state organizations assembling between these two periods.

It is estimated that in case of invasion Illinois could place 83,625 in the field. Pennsylvania comes next with 77,174, and Ohio third, with 60,000; New York, 56,000; Indiana, 43,192; Kentucky, 26,137; Missouri, 35,000; Massachusetts, 33,391; Wisconsin, 30,343; Texas, 28,440; Virginia, 28,440; New Jersey, 28,437; Georgia, 28,071; Michigan, 26,000; Iowa, 24,899; North Carolina, 24,000; Mississippi, 22,700; Maryland, 20,816; Arkansas, 20,000; and the remainder of the states below 200,000 each.
